

SAVY & SONS

Building the future. Restoring the past.

OUR PROMISE IS TO
BUILD VALUE
 into every project while
 delivering professional expertise.

What We Can Do
WE'RE EXPERTS IN

WATERPROOFING SOLUTIONS

Elevator pits, dams, bridges, electrical conduits, and foundation waterproofing. Polyurethane and epoxy injections. Mortar pumping and soil stabilization. All types of coatings. Water leak repairs and emergency repair services.

INFRASTRUCTURE REPAIR

Above and below ground infrastructure preventative maintenance and repair. Emergency services. Installation of structural and sealing liner systems as alternative to replacement solution.

MASONRY RESTORATION

Masonry building repair and restoration. Clear sealing, caulking, and re-pointing. New and replacement window and door installations. Custom color and texture matching. Historic building specialists.

EPOXIES & PROTECTIVE COATINGS

Chemical resistance and deterioration prevention. Epoxy, polyurethane, and cement based coatings. Polyurethane injection for waterproofing and epoxy injection for structural repairs.

WATER & WASTEWATER REHABILITATION

Sewer invert experts in new inverts, repair, and maintenance.

ABOUT US.

Setting the quality standard for three generations, Savy & Sons is family owned and operated, providing unparalleled expertise as a full service masonry and waterproofing contractor. Our top priority is to solve problems with unmatched customer service.

Offering a wide-range of in-house services, we also work with a well-vetted group of contractors to complete projects to our high standards.
